AiiT

Dear Friend,

Since independence, India has come a long way in the development of educational infrastructure. However the demand for quality education far outstrips the supply, especially in the field of computer education. The last decade had seen the computer industry making radical changes, both in hardware and software with quantum leaps in technology. Now computers are increasingly becoming the fulcrum of modern day society with their ease of use. Many professional experts and Government authorities have estimated that the computer industry will create unlimited job opportunities in the years ahead. Although India has a very large number of skilled computer professionals, there exists a wide gap between the demand and availability. In this race for leadership, our endeavour is to produce quality trained computer professionals both in hardware and software applications.

ABOUT US

Our primary aim is to train people in the productive use of computers and create opportunities for familiarization, application and use of this modern day tool. We offer a complete range of computer courses tailored to suit people from all walks of life like Students, House wives, Employees, Business people, Executives etc. who wants to use computer as a tool to assist them in their work or pursue a career in Information Technology. We emphasize more on practical sessions by which the students are enabled to have confidence in handling real life tasks independently. Our curriculum always expands to keep you update in technology and changing industrial requirements.

COURSE HIGHLIGHTS

- Multimedia Based learning systems
- Emphasis on practical learning methods
- Real life case study projects
- Systematic and modular approach
- Periodic tests and feedback
- Flexible course timings

OUR FACULTY

Comprises of highly qualified and experienced computer professionals and engineers with superb teaching credentials. They are committed, competent and thoroughly dedicated to the upbringing of their students. Special lectures and practical demonstrations by eminents in the field of Information Technology is an innovative feature of **Aiit**

OUR FACILITIES

OPEN ACCESS: Our students can always have friendly interaction with the faculties to enhance their knowledge regularly.

VALUE ADDED LEARNING: We are always interested in what the future holds for each student at **AIIT**. We are concerned about the skills that accelerate their growth. Most students who come over with a specific career goal, will finally be equipped to do a lot more than they ever imagined.

EQUIPMENTS: Our computer lab is equipped with the latest range of computers enhanced with multimedia to provide audio and visual based learning schemes.

LIBRARY: A well equipped reference library with a wide range of text books and multimedia based learning tools are accessible to our students.

STUDENT COUNSELLING: We are always active in providing proper advice and guidance to students, helping them in their future studies, employment and career.

TRAINING: D.T.P. Students will be provided advanced training in all kinds of pre-press works, at Assisi Press and Jeevan Books

POWER SUPPLY: Un interrupted power supply

LAB: Air-conditioned lab
